

Care about

NATIVE BIRDS?

join the locals: pestfreedairyflat@gmail.com

Pest Free Dairy Flat was established to give our cherished native birds and plants the chance to thrive by eliminating predators: stoats, ferrets, weasels, possums, rats, and mice across Dairy Flat and Waitoki. Now, it's time for the Dairy Flat and Waitoki communities to come together to take action. We need your help to make this vision a reality. Let's create a safe corridor for kiwi to roam!

Whether your motivation is to protect your home from pests, be connected to your neighbours, or restore native bird life, join us and become part of your local pest-free community.

Ways You Can Make a Difference:

- **Trap at Home:** Start in your own backyard and help reduce pest numbers.
- **Join Our Trapping Team:** Participate in community efforts to trap pests in targeted areas. Come to our workshops to learn more about native flora & fauna and pest control
- **Support Our Mission:** Contribute to Pest Free Dairy Flat (PFDF), a charitable trust dedicated to funding and driving this critical work.

Ready to be involved? Reach out to us via:

- **Facebook group:** Pest Free Dairy Flat
- **Email:** pestfreedairyflat@gmail.com

Find out the whats and the whys at our upcoming meeting:

- **When:** Wednesday, 30th October at 7 pm
- **Where:** Dairy Flat Village Hall, Dairy Flat Highway

RSVP to pestfreedairyflat@gmail.com by Tuesday 29th October to let us know you are coming. Everyone is welcome.
